LARGE NEW BUILDING UNDER CONSTRUCTION

Green & Boedeker, merchants and implement dealers, have begun the construction of a large modern building at the corner of Howell street and Highway 77.

This building will be 80x80 with 6400 square feet of floor space. Its construction will be of steel and concrete with the added attraction of a solid plate glass front of 80 feet facing the highway.

The properties being developed meant the clearing away of a residence.

The location of this building gives needed expansion to the business district and is an auspicious movement away from the congested area. It will be the first of two large implement houses to be built in this city.

Mechanization of farming has brought Cameron again into the forefront in central Texas as a machinery distribution center.

Ground has been broken for the new building. In the same block and also facing Highway 77. A W. McCullin has under construction a large modern service station of white Texas limestone. West on city property two buildings are projected, one the municipal building and the other a memorial auditorium, library and museum building for the city.

Mr. and Mrs. F. J. Ronshousen of Port Arthur, Mr. and Mrs. Reed Rogers of Temple, Mr. and Mrs. Kenneth Rogers of Lufkin, were week-end guests of their father, William R. Rogers.

Keep bread fresh. If it becomes hard use it as toast, in puddings or as croquettes.

U. S. statistics show that more than four million persons have graduated from colleges . . . ten times as many as in 1900. This number will increase with men taking advantage of the G. I. Bill of Rights and receiving college education, government paid, for a three year enlistment in the Regular Army.

17,815 BALES OF COTTON GINNED FROM 1945 CROP

Decline of cotton production in Milam county is a good example of what has happened to the crop all over the South.

In the era in which cotton was the mainstay of the south's economic system, Milam county was an average large producer. A 20-year average in that period was 56,000 bales. In 1920 the largest crop on record was 80,000 bales.

Happier days have come to the farms generally over Milam county because there are other engagements, principally live stock and poultry. The cotton area of Milam county has gone largely to live stock and to poultry and the result has been better farm incomes. There is no denying however, the government program, plus labor shortages, have caused the collapse of cotton farming. Until such time as the land owner can compete in the labor market we will not see cotton revived.

The current report by Jess Thompson, statistician for the Department of Commerce shows that there were only 17,815 bales of cotton ginned in Milam county through March 1, 1946 as compared to 16,936 bales for the crop of 1944 through the same period.

Cotton Chop insurance and other government aids to production must be relied upon to keep the cotton farmer in the field with his industry until such time as conditions warrant his full participation in the world's cotton growing.

Says Bombings From Saipan and Iwo Jima Shortened The War

Major Walter Dossett of Waco told Rotarians and their guests here Wednesday that bombings by B-29 crews from Saipan and from Iwo Jima shortened the war by many months.

Major Dossett was with the Air Forces, attached to operations and gave a vivid account of what air war is like. The big ships flying in from distant bases wrecked and seared the Japanese homeland.

In the early days the American air men sustained heavy losses but gradually improved their bombing efficiency. The Japs sent many fighter planes on one way suicide missions to strike at the base on Saipan.

Major Dossett, now in civilian life, spent his boyhood in Cameron where he was born.

RODEO CONTRACT WILL BE MADE HERE FRIDAY

Contract for the Centennial Rodeo in Cameron will be made here Friday with representatives of the company staging the Fort Worth Livestock Exposition Rodeo, it was said by Mack Akers, chairman of the local committee.

A representative of the company will be here to discuss the plans and to look over the setup for the coming Centennial Rodeo.

Mr. Akers said he was planning a Rodeo which would be a credit to any city in America.

The sum of \$5000 has been allocated for the prizes and other expenses necessary for the Rodeo. This sum represents almost two thirds of the funds already raised for the celebration May 23, 24 and 25.

The finances are far from secure, it was learned Thursday. Unless the people here respond better in the next few days a critical situation may develop in plans already projected. Have a share—see the committee and give.

LOCAL MEN GET PRISON TERMS FOR ROBBERY

According to information here, Blackmon had been to Brenham and was returning and gave the men a ride in his car.

After the robbery which occurred on the night of February 12, the men passed through Cameron and stopped in Temple where they engaged in a fight with a truck driver. It was said here they were on their way to West Texas.

His survivors include his widow, and one daughter Lucille Zander, and one son, Willard Zander, who lives at their home near Burlington. He is also survived by one brother, Richard Zander of Burlington, and five sisters, Mrs. Hugo Fuessel, Burlington, Mrs. Franke Galler, Temple; Mrs. Amiel Kluegge, Houston; Mrs. Willie Galler, Port Arthur; and Mrs. Mary Henke, of Burlington.

A short service will be held at Green Funeral Chapel at 2:00 p.m. Wednesday, March 27 and the body will be carried to Terry's Chapel church where Rev. W. A. Park Band Stand Is Being Repaired For Pioneer Day Here

The band stand in central city park will be repaired and reroofed for use during the Centennial celebration and on Pioneer Day.

The city council on last Tuesday night authorized the expenditure and a committee was named to make the arrangements and to secure the labor. Three pioneers, R. L. Batte, M. G. Cox, and Judge Jeff T. Kemp make up the committees and held a meeting Monday afternoon at the offices of Mr. Cox.

The band stand was repaired in 1922 and since that time has not had any attention. Likewise playground equipment in the park has never been replaced and is now unusable in the main.

G. I. SCHOOL IS FACING SIZEABLE HURDLES HERE

The proposed G. I. school in Cameron was facing some sizeable hurdles and had not yet been organized although charter had been granted in Austin.

Superintendent Chas. M. Hicks said that recent regulations and some older restrictions had placed problems in the way that while it is hoped they can be overcome, may make the operation of the school impossible.

Mr. Hicks was very regretful over the turn of events. No service man can draw compensation from the government and attend this school if he is wholly employed. Some who wished to attend school while holding jobs cannot do so because there will be no night classes except for the agricultural courses.

Mr. Hicks said that a plan may be worked out but there seems to be no way at present to overcome the employment bar to the \$90 monthly for a married veteran or \$50 for a single veteran and that night classes which were especially attractive to veterans who wished to attend while holding a regular job, are not authorized.

There has been considerable inquiry here from veterans who wanted to start drawing their compensation for schooling under the GI Bill of Rights.

The schools are under the supervision of the County Board of Education and are generally facing the problem imposed by the cessation of night schools.

Mr. Hicks was in Goldthwaite last week attending a conference in an effort to work out plans for the school so that veterans may have the opportunities they seek.

Mrs. S. W. Holland is spending several days in the home of her sister and family, Mr. and Mrs. Eddie Dodson, and will visit relatives in Goliad before returning to her home at Mt. Ayr, Iowa.

Dog Wood In Bloom And New Trails Are Pioneered By Cox

New trails have been pioneered into a land of floral charm just beyond the pavement by Moss G. Cox, who has been a strong advocate of dog wood trails each spring.

Early Monday Mr. Cox brought in some excellent dog wood blossoms and announced he had found a vast new area of dog wood now in bloom in the timber belt east of the city.

Sunday while showing some friends the dog wood off the Hanover road on Pin Oak Creek he walked into a new and hitherto unknown area of blooming shrub and was enthusiastic about the prospects for an annual trail.

Mr. Cox says the new area is much larger than anything hitherto known even in the area east of Gause and that Palestine in East Texas has

nothing to compare with Cameron's dog wood.

5 Pound Bass Caught By Milton Faulkner

A five-pound black bass was caught Saturday by Milton Faulkner from a lake on his farm north of the city.

Mr. Faulkner, who saw service in the navy during the late war, has been devoting his time to his farm and looking after the club lake.

The bass was placed in a tub of water and exhibited from his car. The Faulkner lake is fed by springs and is known for its fishing. Privileges are based upon annual fees paid into the club with limited membership.

Memorial Placard Is Proposed For Donors To Centennial Plans

A memorial placard to those who have given to the Centennial Fund is being proposed. As yet there has been nothing definite but it has been suggested, especially since response has been so liberal.

O. B. Horstmann, finance director said that the goal is not yet reached in the Centennial demands and that collections have been lagging. An-

other general response from the people will put over the program. If you have not given see some of the committee at once. You will want your name on the memorial placard as a contributor to Cameron's historic past and bouyant future.

We appreciate the cooperation received from the members during the past year in adding new members.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

More than 2,100 members qualified as Woodman Circle Boosters during the year.

Baby College

Not many youngsters can boast of going to Yale at the age of six months, but March of Time's "Life With Baby" is filled with cute youngsters who have been regular attendants at the Clinic of Child Development conducted by Dr. Arnold Gesell and his staff. Progress of these "juniors" is caught by the camera in hilarious scenes with blocks, mirrors and elusive pellets! (Caps and gowns are replaced by the more informal diaper.)

"To Spank or—?"

Parents sometimes punish a four-year-old for making faces at people. But Yale University's Clinic of Child Development shown in March of Time's "Life With Baby" urges patience and understanding of such passing phases, which are simply normal stages in the child's development. Tots and toddlers in this film demonstrate in laugh-packed sequences what these stages are. Thus parents who understand just what may be expected of a child will not punish him for behavior normal at his age.

CHRISTIAN SCIENCE SERVICES

"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 31

The Golden Text is: "Whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are lovely, whatsoever things are of good report, if there be any virtue, and if there be any praise, think on these things" (Philippians 4:8).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Follow peace with all men, and holiness, without which no man shall see the Lord" (Hebrews 12:14).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Life, Truth, and Love are the realities of divine Science. They dawn in faith and glow full-orbed in spiritual understanding" (page 298).

5 Rattle Snakes Are Killed In Hour By Two Cameron Men

Five rattle snakes were killed within one hour Sunday on the A. W. Esslinger farm near Splawn by Alex Richardson who is employed by the Coleman Furniture Company and R. L. Smith.

The largest of the snakes had 11 rattlers and was about 4 feet in length. The other four snakes averaged 7 rattlers each.

Splawn is in an area of the county where snakes have been numerous for years.

Mr. Richardson said that one person had been bitten in that neighborhood recently. He said that during the next 60 days will be a dangerous period for people and for live stock as the rattlers are coming out for the summer. Most of the snakes are blind when they first come out of hibernation, he said.

For downright comfort, I wouldn't swap my cottage for the finest mansion unless I could take my closet furnace with me. This, you know, is the vented gas appliance that provides luxurious automatic central heat. It was installed when house was built and is financed as part of total house cost. Therefore, central heat, considering its advantages, costs me little, if any, more than ordinary heat. No wonder Lone Star Gas Company recommends closet furnace for heating cottages. Of course, it is vented to a flue.

From where I sit ... by Joe Marsh

Ben Ryder and the Wanderlust

During the war, Ben Ryder talked about the trips he'd take when gasoline rationing was ended. Used to pore over roadmaps—checking mileages and charting routes.

Now Ben's taking quite a lot of ribbing. Soon as rationing was lifted, he decided he liked staying home, putting in the garden, playing chess, sharing a pleasant glass of beer with friends.

"Shucks," admits Ben sheepishly, "as soon as you can go, then it's just as good as having gone!"

You might as well stay home... enjoy your friends and family."

From where I sit, that's a pretty common trait in human nature.

Take that glass of beer, for instance. During Prohibition, Ben was nursing an insatiable thirst. But come repeal, Ben suddenly finds he's happy with a friendly, moderate glass of beer—and nothing more. Yep—just tell folks the sky's the limit, and they'll settle for a piece of friendly earth.

School Transportation Application Calls For \$53,272 From the State

Application for transportation funds for the public schools of the county is being made by Chas. M. Hicks, county superintendent.

The application calls for \$53,272. It was expected the estimate might be revised by the Department of Education but the figure is a good illustration of the growing system of transportation.

Methods have changed and the bus has made small schools untenable with the large communities affording better facilities. This has resulted in better advantages for the children and brings considerable revenue to the districts.

M. B. Swanzy of Ben Arnold was a business visitor in Cameron this week.

LIGHT CONDITIONING

Provides plenty of the right quality of light for easy seeing and at the same time adds beauty and charm to the home. Light Conditioning, with all its benefits, costs so little and adds so much to efficiency in the home and to the enjoyment of better living.

LIGHTING THE Living Room

Lighting the Living Room, the index to your home, is vitally important. From the largest floor lamp to the smallest wall bracket, the lighting should be designed for comfort and ease in seeing... and to lend new charm and beauty to the room.

In planning lighting for the Living Room, first consideration should be given to seeing needs. Supplementing general illumination, there should be floor lamps

and table lamps, designed for correct illumination, placed at points where studying, reading, sewing or other close seeing tasks are done. General illumination may be obtained from indirect or semi-indirect floor lamps, ceiling fixtures or wall brackets. Then, after lighting of proper quality and intensities for seeing has been provided, light sources for purely artistic or decorative effects should be considered.

New floor lamps, table lamps, fixtures and other home lighting equipment will soon be available again. So visit your electrical dealer's store and discuss with him your plans for Light Conditioning your Living Room.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

CARDUL

A COPY OF THIS RESOLUTION AND ORDER, signed by the Mayor of said City of Cameron, shall serve as a proper notice of said election; and the Mayor is hereby directed to cause notice of said election to be posted at the place designated for holding said election and to be printed in the Official Organ of the City of Cameron, or other newspaper printed in said City, for at least thirty days prior to the date of said election.

Offered by Alderman Bob Terry.
PASSED by unanimous vote at a regular meeting of the City Council of the City of Cameron, Texas, on Tuesday, the 5th day of February, A. D., 1946, the same being the first Tuesday in said month;
AND APPROVED February 5th, A. D., 1946, by

Over 100,000 babies are born each year in the United States. The startling total of births between Pearl Harbor and V-J day, says March of Time's "Life With Baby." This revealing film shows the important findings being made in the field of Child Development by Dr. Arnold Gesell and his staff at Yale University's Clinic of Child Development, and photographed through their unique one-way-vision dome (upper left). . . . All too often a child under two is punished for pulling things apart. But soon he will enjoy putting things in their proper places. . . . A child of two who persists in putting a round peg in a square hole is not necessarily lacking in intelligence, explains the film. . . . A normal three-year old, for example, will build structures which call for careful coordination of eyes and hands. . . . By a grasp of facts revealed in the film, the intelligent parent can avoid many old worries and misconceptions.

ENLISTMENTS OPEN TO 2ND ARMORED DIVISION

Effective immediately and continuing until midnight April 7th, direct enlistment in and assignment to the Second Armored Division, presently located at Camp Hood, Texas, is now open to all men with previous service in any armored force unit including service type organizations with the armored forces, according to a War Department TWX received today by Headquarters, San Antonio, U. S. Army Recruiting District.

Colonel Jean Edens, commanding officer stated that "this opportunity to all qualified men for direct enlistment in and assigned to the Second Armored Division is authorized regardless of period of enlistment. However, all men enlisted for this duty will be shipped through reception centers in the usual way."

"Grades in which enlistments are accomplished" will be governed by current regulations. Any man who has not been out of the service 90 days will be reenlisted in the grade he held at the time of discharge. Rat-Colonel Edens pointed out.

"However, any veteran discharged on or after May 12, 1946, who has certain training in any one of 400 different specialties may be reenlisted up to and including the grade held at the time of discharge. Ratings will be judged by the length of previous time spent in particular Army specialties."

"All previous regulations in conflict with the provisions of this announcement are suspended for this priority mission only."

"The Second Armored Division, rich in accomplishment, was chosen to participate in the San Antonio Army Day parade, April 6th, one of the four points selected throughout the United States for official parades. Now commanded by Brigadier Gen. John H. Collier, the "Hell of Wheels" division fought with the 7th, 1st and 9th armies through Africa, Sicily, France, Belgium and Germany," Edens concluded.

The local U. S. Army Recruiting Office is located at 15 East Central Avenue, Temple, Texas.

CAMERON A SQUAD IN WIN OVER REDS 34-0

Cameron's varsity ran away with the scoring end of the inter-squad game at Yoemen stadium Friday at 2 p.m. but not without a fight and for a while it looked like anybody's game as the Junior men staved off a number of touchdown threats.

The Reds finally caved in and the Whites came through much in the same fashion as spectators hope they may this fall when the conference trophy is up. The score was 34 to 0. Paul Burke, husky full back, stood out on conversion, showing fine form with 4 out of 5 goals after touchdown. Over on the bench Coaches Jackson and Young looked pleased.

Joe Hawkins, gangling left end took a heave from Burke and went away for another score and T. J. O'Neill scored two on some spectacular end sweeps. T. J. has put on weight and looks tough and airy, a growing form he lacked during his scintillating days in 1945.

Jimmy O'Neill, who got hurt last season was back at center. He has come through the spring practice without further hurt and his knee seems o.k. and Coach Jackson is pleased. Jimmy now weighs about 170.

It was no secret that the Coach was pleased with Mareillo Garcia, the Junior center for the Reds. A fine line backer on defense he was a power at the pivot spot as the Reds rolled up the Varsity line time and time again. Garcia has two more years of eligibility.

Charlie Riola, big 205-pound left tackle, is doing the kick-off job as well as wracking up everything in front of him. Not since J. B. Gilbert have the Yoemen produced anything like Riola. In the pre-game exercises he was lifting some hefty punts down field and may be the real find of the season. If he can maintain his present form he will be the Yoemen candidate for all-district at guard.

The Reds produced some good prospects also. Billy Hawk, a fast and coming half back was especially tricky with ball toting and Buddy Shipp at quarter for the Reds kept the Varsity in hot water with good field generalship. Lawrence Polzer, Red guard, go away for the longest run of the day against the Varsity and Garcia on a pass interception in the second quarter raced 20 yards and might have scored but for a bounce out of bounds at mid-field.

Bob Holloway, the 165-pound sophomore who came to the regulars this year to take the place of Gillis Graham, was giving a satisfying performance Friday and much is expected of him this fall.

One of the longest runs of the day was turned in by Dick Burke who scattered to the Reds 10-yard line from the 40 for 30 yards.

The Yoemen will resume work September 1. Coach Jackson says that Garland will be back to train at the stadium this fall.
